AARON GILLIES
FULL STACK DEVELOPER

Projects

One Line a Day - React | JavaScript | CSS | Node | Express
Oct. 2019 to Oct. 2019
• Worked with a team of full stack developers to deliver a user-friendly note-taking web application in one week
• Built a responsive and accessible landing page using HTML/CSS, and collaborated with other front-end developers/UX designers on the team to make sure that the design and user experience were consistent throughout the entire application

Chef Portfolio - React | Redux | JavaScript | Node | Express
Jan. 2020 to Jan. 2020
• Recipe sharing application allowing users to post and view their favorite recipes
• Planned and built the user authentication flow as well as the application's state management using Redux
• Collaborated with the back-end engineer often throughout the project to ensure seamless integration with the server/database

Kansha Rewards - React | JavaScript | SASS | Node | Express
Feb. 2020 to Apr. 2020
• Peer to peer workplace recognition application
• Refactored the entire user onboarding process and built the bulk user upload feature allowing the organization administrator to upload users via a CSV file
• Refactored application from MaterialUI to SASS for greater control over application styling
• Built multiple dynamic components which allow the organization administrator to manage teams resulting in a usability score greater than 95% from user surveys that were conducted bi-weekly

Employment

Wakefern Food Corporation
Syracuse, NY
Retail Department Manager
Sept. 2014 to May 2019
• Managed a team of 5-7 team members daily by assigning work and following up on assigned work
• Ensured the department met quarterly/annual sales and loss goals by maintaining accurate product stock levels and developing action plans to address problem areas
• Implemented product loss control strategies that reduced average weekly product loss from 8% down to 3%
• Reviewed employee performance frequently to identify potential fit for promotions or growth within the department or company
